Welsh law firms' views wanted on their use of technology

09 June 2023

Welsh Government has commissioned Cardiff University to undertake its Digital Adoption Survey for the Legal sector in Wales, 2023. It aims to build as strong a picture as possible of legal services in the emerging digital economy in Wales to inform the work of Welsh Government and partners in supporting its development.

All feedback gained will inform Welsh Government interventions and assistance for the sector in coming years.

The survey takes around 10-12 minutes to complete and the deadline for responses is Friday 23 June.
