Help shape insight into career progression

05 December 2023

We work with a range of diversity groups who actively promote equality, diversity and inclusion in the profession including [InterLaw Diversity Forum](https://www.interlawdiversityforum.org/) [<https://www.interlawdiversityforum.org/>].

The forum's latest career progression research will give insight into career experiences of legal and business services professionals working in the legal sector. Read more and [take part](https://www.interlawdiversityforum.org/2023-research-survey/) [<https://www.interlawdiversityforum.org/2023-research-survey/>].

The survey is anonymous, will take about 15 minutes and invites you to share your views on flexible working, work allocation and promotion practices as well as your experience of and thoughts about inclusion in your workplace.
