Verifying your mySRA account

18 August 2025

Verifying your identity in mySRA has changed to an app-based verification

Multi-factor authentication significantly reduces the chances of a third party accessing your mySRA account. It is an effective tool that helps protect your data and stop identity theft.

We have further improved the security of mySRA by switching to app-based verification. Instead of receiving a code by text message, you now need to use an authentication app to generate the code.

You will not be able to access your mySRA account if you do not set this up.

How to verify for the first time

- **Step 1 - Download an authenticator app**

Please download an app on to your mobile device (smartphone or tablet) – we suggest using either the Microsoft Authenticator or Google Authenticator. Or you can use another authenticator app if you prefer. You only need to do this once – unless you change your device.

To install on your Apple/iOS device

- [Microsoft Authenticator \[https://apps.apple.com/us/app/microsoft-authenticator/id983156458\]](https://apps.apple.com/us/app/microsoft-authenticator/id983156458)
- [Google Authenticator \[https://apps.apple.com/us/app/google-authenticator/id388497605\]](https://apps.apple.com/us/app/google-authenticator/id388497605)

To install on your Android device

- [Microsoft Authenticator \[https://play.google.com/store/apps/details?id=com.azure.authenticator\]](https://play.google.com/store/apps/details?id=com.azure.authenticator)
- [Google Authenticator \[https://play.google.com/store/apps/details?id=com.google.android.apps.authenticator2\]](https://play.google.com/store/apps/details?id=com.google.android.apps.authenticator2)

- **Step 2 - Log in to mySRA**

Enter your username and password.

- **Step 3 - Scan the QR code**

Using your authenticator app, scan the QR code to enrol your device and generate your six-digit code. Press continue.

- **Step 4 - Enter the code**

Enter the six-digit code shown in your authentication app and complete your login.
